It is further agreed that Company shall not be liable for any injury or damage to Customer's premises (including the Delivery Address) occasioned by any removal of Company's Equipment, including the removal of underground tanks and piping

SECTION 4. TRANSPORTATION, DELIVERY, INSTALLATION, OPERATION

Maintenance. Customer is solely responsible for the condition of Equipment while it is in Customer's possession. Customer will return all Equipment in the same usable and good condition as it was received, reasonable wear and tear excepted.

Customer agrees that no services, connections, disconnections or the like will be made to Equipment except by Company employees or its authorized representatives. At all times the Customer shall grant Company the right to have the necessary access to Equipment in order to inspect, service, change, repair, replace or remove all or part of the Equipment. Company shall be held harmless by Customer for authorized servicing of Company's Equipment and for defects or liabilities caused by fuel equipment owned by and fuel supplied by the Customer. Customer shall not move the Equipment from its original location at the Delivery Address, nor part with possession thereof or encumber the same in any way, and shall surrender the Equipment to Company upon termination of this Agreement in the same usable and good condition as it was received, normal wear and tear excepted. Customer further agrees to advise Company in writing of any apparent malfunction in Equipment so that Company may repair such malfunction, or replace the Equipment, in its sole discretion, promptly.

Customer also agrees to pay a reasonable cleaning charge for Equipment that is returned to the Company dirty. Equipment that is destroyed, lost, stolen, taken by government or damaged beyond repair shall be paid for by Customer at its then-current list price. All repair costs will be borne by Customer. Equipment with gas/diesel engines must be returned at same level of fuel as when taken into Customer's possession, or Customer will be charged at the Company's then-current fuel rate plus a 20% service charge (plus any applicable taxes). Use of the Equipment in the following circumstances is prohibited, and constitutes a breach of this Agreement: (i) use for illegal purpose or in an illegal manner; (ii) use when the Equipment is in bad repair or is damaged or unsafe; (iii) improper, unintended use or misuse, including use of the Equipment beyond its capabilities, outside of its intended uses, in adverse conditions (including inclement weather), or not in accordance with the manufacturer's instructions; (iv) use by anyone other than Customer or its qualified employees or personnel, without Company's prior written permission; (v) use at any location other than the Delivery Address furnished to Company without Company's prior written permission; and (vi) any unauthorized alteration, modification, or other changes to the Equipment.

Fuel Use. Fuel stored in site tanks or Equipment is solely-owned by Customer. Furthermore, there are no refunds for any fuel that may be pumped out or remaining in the tanks/cylinders of Equipment when Company retrieves them and Customer is responsible for all fees and costs associated with pumping out remaining fuel. **THE TANKS CANNOT BE LEGALLY TRANSPORTED WITH MORE THAN FIVE (5%) PERCENT OF THE FUEL CAPACITY REMAINING IN THEM. IF COMPANY MUST PUMP THE TANKS DOWN TO THEIR 5% FUEL LEVEL, THE PER-HOUR CHARGE STATED ON THE APPLICABLE RENTAL QUOTE FORM SHALL BE INVOICED FROM PORTAL-TO-PORTAL, WITH A MINIMUM CHARGE OF FOUR HOURS.** The rate that propane can be pumped from a tank is approximately 150 gallons per-hour.

Transportation and Delivery. Customer must have an authorized agent available to sign a bill of lading upon delivery of the Equipment by the carrier. If no agent is provided at the time of delivery, Customer authorizes Company's employee to execute the bill of lading as Customer's agent and such execution shall be deemed an acceptance of the condition of

the Equipment upon delivery, and for all losses occurring to the Equipment thereafter while in Customer's possession. It is the responsibility of the Customer to notify the Company in writing if any Equipment is moved from the delivery point at the Delivery Address to a different address.

Inspection. Before the Customer takes possession of Equipment, Customer may require an inspection thereof by a qualified inspector. If Customer does not inspect the Equipment before it is loaded for transit, then Customer is conclusively deemed to have accepted that the Equipment is in good running order without broken or worn out parts and in a clean and unmarred condition. Company shall have the right at any time and from time to time to enter the premises occupied by the Equipment and shall be given free access thereto and afforded necessary facilities for the purpose of inspection, service, change, repair, replacement and/or removal. The Company shall have the right, but not the obligation, to at any time, without notice, during the rental period to enter upon the premises or place where the Equipment is located and shall be given free access and afforded all necessary facilities for the purpose of maintenance and inspecting, servicing, changing, repairing, replacing and/or removing the Equipment without any trespass being occasioned thereby.

Installation. Upon request, the Company shall provide a service technician to advise Customer regarding initial installation and operation for the fee(s) and/or charges set forth in the Rental Quote Form. Customer shall install and operate the Equipment in a careful and proper manner consistent with industry best practices and any guidelines or instructions provided by the manufacturer or Company.

Service Calls. Any visit to the delivery site by Company Service Personnel after the installation date shall be billed at prevailing time and material cost unless deemed a Company covered issue. If Company personnel determine that the basis for the service call is due to faulty Equipment or installation, the Company will credit back the fee charged. However, any relocation of the installed Equipment, change in fuel source hook up or failure by Customer to properly ventilate the Equipment or to leave Equipment on maximum settings without physical inspection and monitoring daily by Customer, shall be conclusive evidence of damage to Equipment caused by Customer.

Operation. Customer shall at its own expense operate, maintain, and keep in good repair the Equipment and return it in the same usable and good condition in which it was received, reasonable wear and tear excepted. Specifically, Customer must: (a) ensure that the Equipment is operated by qualified employees or other personnel in accordance with applicable manufacturer's guidelines and instructions; (b) ensure that the Equipment is used for applications within the capacity ratings of the Equipment; (c) comply with all applicable federal, state, provincial and local laws and regulations in connection with installation, operating, storage, handling and transporting the Equipment; (d) inspect the Equipment on a regular basis; (e) supply all fuel, coolants, and lubricants necessary to operate the Equipment; (f) immediately notify Company of any known problems or malfunctions or suspected malfunctions or problems or those that should reasonably be known or suspected upon regular inspection that are necessary to keep the Equipment in good running order; (g) perform all routine and minor repairs and maintenance necessary to keep the Equipment in good running order, unless otherwise agreed in writing; (h) replace all broken or worn out parts on the Equipment, unless otherwise agreed in writing, and notify Company immediately of any broken or worn out parts on the Equipment; (i) return the Equipment in a clean and unmarred condition. All safety signs and markings necessary or desirable for the operation of the Equipment shall be responsibility of Customer.

Returning/Recalling. Customer shall peaceably and promptly tender the Equipment to the Company at Company's site from which the Equipment originated in good order and condition upon expiration of the rental period, or at any time upon the termination of this Agreement. In the event that Customer has not so tendered the Equipment, the Company shall charge the Customer the full rental rate, plus applicable taxes, for each day thereafter until the Equipment is returned. If at any time the Company deems, in its sole discretion, itself or the Equipment insecure or at risk, the Company may enter the premises immediately and remove the Equipment without being required to first obtain a court order, and Company hereby unequivocally and irrevocably grants its permission for the Company to do so. Company may recall any or all Equipment upon thirty (30) days written notice to Customer and Customer may return any or all Equipment upon like notice to Company, as soon as possible. In the event of a manufacturer or Company recall, Customer shall remain responsible for any loading, unloading, and transportation costs. Customer shall pay the cost of inspection and maintenance of the Equipment upon return of the Equipment to the Company.

Repairs and Changes. Unless otherwise agreed upon in writing, Customer shall not make any alterations, additions, or improvements to the Equipment without Company's prior written consent. Customer shall obtain the written consent of the Company prior to making any alterations or modifications to the Equipment. All approved and completed alterations or modifications shall become part of the Equipment, and title thereto shall vest in the Company. The alterations or modifications undertaken by Customer shall be performed and completed in workmanlike manner and pursuant to best industry standards.

If the Equipment goes down for maintenance or repairs while in Customer's service, Customer must notify Company of same and Company shall, at its sole option, either (i) arrange for the return of the down Equipment, and make arrangements to send Customer Equipment to replace it (and Customer shall pay all costs related to transportation of the Equipment); or (ii) arrange for the repair of the Equipment by a qualified technician (and Customer shall pay for travel time, mileage, labor, and parts for the services of each such technician).

Additionally, the Parties hereto acknowledge that the Equipment is unique in design and manufacture, and as to Company, it is inherently valuable as rental Equipment. Therefore, in the event of damage to the Equipment, regardless of whether ultimately deemed a total loss, Company and Customer agree that the loss to Company comprises, in addition to the Replacement Cost or cost of labor and parts to repair the Equipment, storage, handling and transportation costs, travel time, mileage, and other such incidental costs, the loss of use of such rental Equipment (rentals) until it can be fully repaired or replaced. In such event, Customer shall also be liable for, and agrees to pay within thirty (30) days from receipt of Company's invoice, the loss of use and rentals which such damaged Equipment could have produced, at Company's then current published rental rate, for such period of time which elapses from the loss until the Equipment can be repaired or replaced.

SECTION 5. RISK, LIABILITY, INSURANCE

Risk of Loss. Risk of loss of or damage to the Equipment will pass to the Customer when care, custody and control passes to the Customer. Care, custody and control of the Equipment shall pass to the Customer when physical possession of the Equipment has been given to the Customer or a carrier for transport to the Customer. Care, custody and control of the Equipment shall remain with the Customer until physical possession of the Equipment is returned to the Company. Customer assumes and shall bear the entire risk of loss, theft or destruction of or damage to, or government taking of, the Equipment from any cause whatsoever, whether or not covered by insurance.

Customer shall cause its insurer to issue an endorsement identifying that all insurance identified in this Section 5 shall be primary to that of Company to the extent of Customer's obligations herein and that Customer and its insurer agree to waive their subrogation rights with respect thereto. Customer shall provide thirty (30) days advance written notice to Company of change or termination of any such policy prior to change or cancellation and Customer shall cause Company to be named as an additional insured on each such policy, other than for Workers' Compensation insurance. Failure to provide the requisite insurance shall not be deemed as a waiver of this provision.

Safety/Environmental Hazard. The Customer shall observe and comply with all applicable environmental and safety laws, rules and regulations, including applicable OSHA and Occupational Health and Safety standards and guidelines, and/or as directed by the Company for project specific safety concerns. In the event the Equipment is damaged by Customer, including due to the negligence of Customer employees and agents in any manner which is deemed under law to be an environmental risk or hazard, Customer shall be deemed to have purchased the Equipment at its then-current full replacement cost and shall promptly pay such amount to Company. Customer shall bear the entire costs of reclamation, remediation and disposal as specified under applicable federal, state, provincial or local law, regulation, ordinances and rules, including responsibility for obtaining necessary approvals, licences or permits.
