

# TCS MA1500 MAKE-UP AIR HEATER

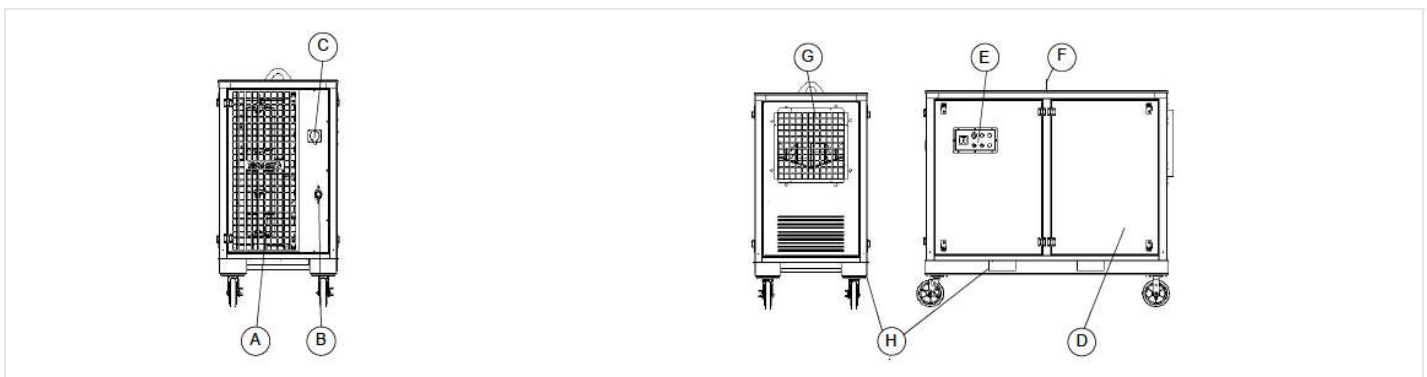

By drawing 100% fresh air, Make-Up Air Heaters reduce air contaminants & pollutants while managing humidity levels and preventing condensation & mold growth. The thermostatically controlled air also prevents negative pressure that can lead to drafts and outside-air infiltration. The MA1500 is equipped with wide-scope gas modulation valving allowing for maximum temperature control and significant fuel savings. Like a permanent air handler, the MA1500 provides evenly distributed, warm, dry air.

## Product Features

- Enclosed flame
- Wide-scope gas modulation for temperature control and fuel savings
- Forklift pockets, lifting eyes & casters
